At the General Shareholders' Meeting held on May 28, 2019, the simple merger of the Company as an absorbing Company and its subsidiary Cementos Portland S.A.C. (CEMPOR) as an absorbed company, was approved unanimously. The Company's merger project was previously approved at the Board Directors meeting of April 26, 2019. The effective date of the merger was June 1, 2019.

In accordance with IFRS, both corporate reorganizations did not generate any change in the effective control of Inversiones JRPR S.A. over the Company and its Subsidiaries and therefore are considered as transactions between entities under common control; consequently, all amounts were recorded at their book values following the accounting method of unification of interests.

1.2 Extraordinary event in 2020 - Health Emergency for COVID-19

The COVID-19 coronavirus pandemic, identified for the first time at the end of 2019 in the Chinese city of Wuhan, since the beginning of 2020 has been increasingly and severely affecting health and life worldwide, causing the paralysis of economic and commercial activities in many countries including Peru and affecting the commercial operations of the subsidiary Company.

In Peru, the first positive case of COVID-19 was reported by the Ministry of Health on March 6, 2020 and caused that on March 11, 2020, the Government declared the National Health Emergency for 90 calendar days, with the purpose of mitigate the effects of COVID-19, declared a "Pandemic" by the World Health Organization (WHO). Immediately after, by Supreme Decree No. 044-2020-PCM, of March 15, 2020, the Government declared a State of National Emergency and mandatory social isolation throughout the national territory, which was later extended up to five times, the last extension being until June 30, 2020, as provided by Supreme Decree No. 094-2020-PCM, of May 23, 2020. Likewise, the Peruvian government declared the extension of the State of National Emergency until October 31 of this year and imposed a quarantine focused 3 provinces.

The declaration of the State of Emergency forced the Company to immediately suspend the production of clinker and cement, as well as the dispatch at our Atocongo and Condorcocha production plants. The priority of the Company and its Subsidiaries from the beginning was focused on its sustainability and the protection of the health, integrity and well-being of its employees and their families, as well as the jobs and members of its shareholders.

In mid-April 2020, the Company restarted in a very limited way the dispatch of bulk cement, exclusively to serve the mining subsector in the execution of its critical activities, under strict security measures and new protocols with complementary measures to protect the health of its employees, which are constantly reviewed. Subsequently, Supreme Decree No. 080-2020-PCM, of May 3, 2020, approved the gradual and progressive resumption of economic activities within the framework of the declaration of the State of National Emergency, which allowed the Company to resume clinker grinding activities and bagged and bulk cement dispatch in the third week of May 2020, taking into account all the recommendations of the health authorities, in order to safeguard the well-being of its workers and the value chain.

Despite the aggressive package of measures launched in successive stages by the Peruvian government and the BCR to inject liquidity into the population and employers and prevent the payment and supply chain from being cut off, the suspension of many productive and commercial activities severely affected the economy, especially employment and the sustainability of hundreds of thousands of SMEs (Small and medium-sized enterprises), drastically reducing the capacity to consume essential goods of millions of entrepreneurs and underemployed and informal workers who represent 70% of the EAP (Economically Active Population) in the country. This serious health and economic crisis significantly reduced the activity of self-construction, the main support of the Company's bagged cement dispatches, in the months of March to May 2020; however, we believe there are sufficient reasons to be cautiously optimistic in the medium term.

The subsidiary UNACEM Ecuador has also been severely affected by the pandemic and, in compliance with government regulations, had to paralyze its activities from March 17, 2020, restarting operations, as of May 4, 2020. This serious health and economic crisis significantly reduced construction activity in Quito and in the provinces of Pichincha and Otavalo, which constitute the main market for our operations in Ecuador; however, we believe there are sufficient reasons to be cautiously optimistic in the medium term.

Instead, the subsidiary Drake Cement in Arizona, USA., it has been able to continue normally all its activities and in the months of April and May 2020 it has recorded record monthly production volumes of clinker and cement and record sales revenue.

The subsidiary UNICON Chile has also continued to operate in almost all of its facilities, although with fewer shipments, as a consequence of the COVID-19 pandemic and the quarantine measures and temporary suspension of activities in a targeted manner dictated by the authorities of that country.

The stoppage of the Company's economic activities in Peru between March 17 and May 19, 2020, generated a deterioration in the financial results of the second quarter of 2020, which led the Board of Directors to adopt a series of preventive measures and extraordinary, applicable throughout the year 2020, to take care of liquidity and working capital, which are allowing the Company to meet its workers, suppliers and clients throughout the entire value chain. The main measures adopted are:

1. Consume existing inventories before restarting the operation of the kilns, to protect the Company's liquidity.
2. Suspend all investments (CAPEX), with the exception of projects in execution to be completed this year.
3. Suspend all expenses on goods and services, including maintenance expenses, that are not critical for this emergency stage, within a policy of strict austerity.
4. Suspend the quarterly dividends distribution to shareholders.
5. Suspend of shares distribution to the board.
6. Suspend advances for profit sharing to workers in general.
7. Accept and thank the solidarity proposal of UNACEM officials to voluntarily and temporarily reduce their salaries by 10% and 25%.
8. Suspend salary increases and bonuses during 2020 for all administrative staff.
9. Manage agreements with workers to collective agreements to suspend salary increases and bonuses in 2020.
10. Continue through UNACEM Association, with the policy of supporting the basic needs of the most vulnerable population in the areas surrounding the Atocongo and Condorcocha production plants.
11. Obtaining short-term financing taken with various institutions of the national financial system to guarantee the required liquidity in 2020.

In January and February 2020, the Company's monthly cement shipments exceeded those of the same months of 2019. However, due to the COVID-19 pandemic and the subsequent Declaration of the National State of Emergency, which led to the mandatory suspension of cement production and dispatch activities, as of June 30, 2020, the volume of cement dispatched by the Company in Peru it has decreased by 41.5% compared to the same period of the previous year. The Company's Management is cautiously optimistic regarding the recovery of the cement dispatch in the remainder of 2020.

Precisely to guarantee the continuity and sustainability of all operations and the liquidity of the Company and its subsidiaries in this year of serious impact due to lower shipments and revenues, between the months of March and June 2020, the Company and its subsidiaries have completed financing banks with the main local financial entities, for terms of no less than one year and with very reasonable interest rates, see note 11.1 (a).

The Group Management, installed immediately after the declaration of National Emergency, has been constantly evaluating and updating various scenarios of the process of reactivation of the economy and the impact on its operations, considering its financial capacity and determining the emergency strategies to follow, in order to ensure the quickest recovery of the level of activities and income generation prior to the pandemic, prioritizing at all times the sustainability, liquidity and profitability of the Company and Subsidiaries and the recovery of value for its shareholders.

(a.1) The Group signed a swap contract to reduce the risk of the variable rate, see note 22.1 (i) (a).

(a.2) On November 18, 2010, Drake Cement, LLC obtained a bond financing of the Development Authority of Yavapai County, Arizona, United States with the purpose of financing part of the investment in the cement plant of the subsidiary amounting to US$40,000,000, maturing in September 2035 and with a monthly interest payments on the basis of a variable interest rate (Securities Industry and Financial Markets Association Index rate) of variable rate plus 3.245 percent, up to a maximum interest rate of 12 percent as of June 30, 2020 and December 31, 2019. Additionally, on July 30, 2015, it made a new bond issue, with the purpose of refinancing loans for the construction of the cement plant, paying for the acquisition of assets, materials and facilities up to an amount of US $ 75,000,000 maturing in September. of 2035 and a monthly payment of interest based on a variable interest rate (Securities Industry and Financial Markets Association Index rate) of variable rate plus 2.75 and 0.1 percent, versus a maximum interest rate of 12 percent as of June 30, 2020 and December 31, 2019. The bonds are secured by a letter of credit from the bank, see note 21.1 (c).

These bonds have the following conditions:
- The subsidiary cannot increase certain debt, for more than US $ 5,000,000 of the outstanding balance at the time of the bond issue, excluding refinancing.
- Maintain an interest coverage ratio equal or greater than 1.0

In Management's opinion, Drake Cement has complied with the restrictive consideration and financial safeguard required by the state of Yavapai as of June 30, 2020 and December 31, 2019.

(b) The applicable financial safeguards to financial liabilities are quarterly monitored and must be calculated based on the consolidated financial information of the Company and each of its subsidiaries and the calculation methodologies required by each financial entity.

(i) As of June 30, 2020, the main financial safeguards based on the separate financial information are the following:

Unión Andina de Cementos S.A.A.:

(ii) As of June 30, 2020, the main financial safeguards based on the consolidated financial information are as follow:

Unión Andina de Cementos S.A.A. & subsidiaries:
- Maintain an index debt minor or equal to 1.5 times.
- Maintain an index service coverage ratio greater than 1.0 times for the year 2020, 1.10 times for the year 2021 and 1.20 times from 2022 onwards.
- Maintain financial debt / EBITDA less than 6.50 times for the year 2020, 4.75 times for the year 2021 and 4.00 times for the year 2022 and 3.75 times from 2023 onwards.

Skanon Investments Inc. and Subsidiaries.
- Maintain an index debt minor or equal to 1.0 times.

As mentioned in note 1.2, in March of this year the Government first declared a state of health emergency and, later, a state of national emergency and compulsory social isolation throughout the national territory. In accordance with the foregoing, and by legal mandate, the Company and its Subsidiaries were forced to paralyze their economic activities, due to this extraordinary, unpredictable and irresistible event.

Certainly, this force majeure event has been generating a negative economic impact on the Company and its Subsidiaries, in such a way that, as a consequence, it is unable to comply with one of the aforementioned financial safeguards.

In this regard, the Peruvian Civil Code in its article 1315 ° expressly establishes the following:

"Act of God or major force is the non-imputable cause, consisting of an extraordinary, unpredictable and irresistible event, which prevents the execution of the obligation or determines its partial, late or defective fulfillment. "

In the present case, the declaration of the State of National Emergency, which led the Company to suspend the production and sale of cement, and with it, that it affects its economy, prevents it from being able to comply with the obligation to maintain the ratio of debt coverage or financial debt / EBITDA within the limits established according to the respective financing contracts, a fact that was duly informed to all counterparties of the obligations that the Company maintains. However, at the level of the aforementioned financial ratio, the Company has been complying with the payment of the debt service in accordance with those established in each of its financing contracts.

For the same reason mentioned above, the subsidiary Prefabricados Andinos Perú S.A .C has not complied with the debt service coverage ratio and debt ratio as of June 30, 2020.

Likewise, the Company's Management has been coordinating with the financial entities the exemptions for the compliance of their financial safeguards in 2020, as well as the determination of the new levels of compliance for the following years, the same ones that it is expected to be define before the closing of 2020.

(c) As of June 30, 2020, and December 31, 2019, interests payable related to bonds and long and medium-term debt are amounted to approximately S/22,780,000 and S/25,162,000, respectively and are recorded in the caption “Trade and other payable”, of the consolidated statement of financial position, note 10(a).

The interest generated by bonds and debt with banking entities in the medium and long term maintained for the years ended on June 30, 2020 and 2019, amounting approximately S/ 99,220,000 and S/ 105,668,000, respectively, and are included in the item "Financial costs" of the consolidated income statement, note 18.

(d) As of June 30, 2020, the Group maintains bank loans in soles with effective annual interest rates in soles that fluctuate between 2.55 to 8.06 percent. Bank loans in dollars are at a variable rate plus a margin (3-month Libor rate plus a margin that fluctuates between 1.75 and 2.60 percent) and at a fixed rate of 3.40 percent.

As of December 31, 2019, the Group maintains bank loans in soles with effective annual interest rates in soles that fluctuate between 4.10 to 12.0 percent. Bank loans in dollars are at a variable rate plus a margin (3-month Libor rate plus a margin that fluctuates between 1.75 to 3.39 percent).

21.3 Contingencies –

In the normal course of business, the Company and its subsidiaries have received several taxes, legal (labor and management) and regulatory complaints, which are recorded and disclosed in accordance with International Financial Reporting Standards.

Peru –

(a) Tax:

Income tax

As a result of the audits of previous years, the Company has been notified by the Superintendency of Tax Administration (SUNAT) with various resolutions for alleged omissions of income tax. In some cases, the Company has filed appeals with superior instances for not finding that said resolutions are in accordance with the law and in others it proceeded to pay the assessments received under protest. As of June 30, 2020, and December 31, 2019, the Company maintains receivables related to certain tax processes, see note 4 (d), because, in the opinion of the Company's Management and its legal advisors, there are arguments to obtain a favorable result to the interests of the Company.

Below is a brief update of the main tax processes of the Company, which were described in greater detail in the note to the separate annual financial statements as of December 31, 2019:

- *Income tax for the years 2000 and 2001 -*

  Up to date, the appeal filed by the Company is pending resolution.

  To date, the appeal for cassation against Resolution No. 17 presented by the Company is pending resolution by the Supreme Court.

Likewise, as of June 30, 2020 and December 31, 2019, the Group has filed claims to the Tax Administration Office (SUNAT), corresponding to the demands and claims for reimbursement of income tax. Management and its legal advisors estimate that there are legal arguments to obtain a favorable outcome in these processes, in which case they will not have a significant impact on the consolidated financial statements of the Group.

	2020 S/ (000)	2019 S/ (000)
Derivative financial instruments:

Total, liabilities, note 22.1(i) and (ii)	52,276	32,300

(b) Financial instruments not measured at fair value -

Other financial instruments are carried at amortized cost and their estimated fair value. The level of the fair value hierarchy is described as follows:

Level 1 -

Cash and cash equivalents do not represent a credit risk or a significant interest rate; therefore, their carrying amounts are close to their fair value.

- Accounts receivable because they are net of provision for loan losses and primarily have maturities of less than three months, and Management has seen its fair value is not materially different from it carrying value.
- Trade and other payables, due to its current maturity Management estimates that its accounting balances approximate its fair value.

Level 2 -

24. Segment information

For management purposes, the Group is organized into business units based on their products and activities and have three main reportable segments as follows:

- Manufacture and sale of cement.
- Manufacture and sale of concrete.
- Generation and sale of electrical energy generated using hydraulic resources.

No operating segments have been aggregated to form the above reportable operating segments.

Management monitors the operating profit of each business unit separately for purposes of making decisions about resources allocation and performance assessment.

Segment performance is evaluated based on gain or less operating and is measured consistently with gain or loss operating in the consolidated financial statements.

Transfer prices between operating segments are on an arm's length basis in a manner similar to transactions with third parties.
