UNACEM Corp S.A.A. and Subsidiaries

Notes to the UNAUDITED Consolidated Financial Statements
as of March 31, 2026 and December 31, 2025

- (i) The subsidiaries of Inversiones Imbabura S.A. (IMBABURA) are UNACEM Ecuador S.A. (UNACEM Ecuador) and Canteras y Voladuras S.A. (CANTYVOL).
- (ii) The main subsidiaries of UNACEM North America, Inc. (UNA) are Drake Cement LLC, Tehachapi Cement LLC, Sunshine Concrete & Materials Inc., which in turn has the following subsidiaries: Maricopa Ready Mix LLC, Drake Aggregates LLC, Desert Ready Mix (DRM), and Desert Aggregates (DA).

(a) *Interests in consolidated structured entities*

- Up until December 31, 2022, DRM was a consolidated structured entity through which UNA conducted its concrete and aggregates operations in the city of Phoenix, United States of America. The initial capitalization and operating expenses of DRM were financed by UNA.

In July 2014, UNA began providing financing to DRM in the amount of USD 1,750,000 for working capital purposes and an additional USD 1,750,000 for raw material purchases. In conjunction with the financing provided, an exclusive option agreement was executed granting UNA the irrevocable and exclusive right to convert the unpaid portion of the financing provided into a 70% majority interest in DRM, at UNA's sole discretion. UNA and DRM also entered into an operating agreement whereby UNA would provide DRM with technical and commercial support, short-term financing and other services. DRM's shareholders pledged their interest as collateral in the event DRM fails to meet its obligations under the above-mentioned agreement. Furthermore, in May 2018, an agreement was reached whereby UNA has the option to acquire the remaining 30% of DRM's shareholding interest.

During 2023, UNA exercised its call option, effective as from January 1, 2023, to acquire a 70% and 15% interest in Desert Ready Mix, LLC at a price equal to the outstanding debt plus accrued interest, in the amount of USD 5,243,000 (equivalent to PEN 20,029,000), as well as an additional 15% interest in DRM for approximately USD 4,882,000 (equivalent to PEN 18,233,000), respectively, thus controlling 85% of DRM. As of December 31, 2023, the price for the acquisition of the 15% shareholding interest in DRM was paid in full.

As of March 31, 2026, UNA is in the process of acquiring the remaining 15% shareholding interest in DRM. This acquisition will take place through prepayments over five years or until the completion of the USD 8,000,000 payment. Control of the 100% shareholding interest will be taken on the date the payment is made in full.

- (iii) Compañía Eléctrica el Platanal S.A. (CELEPSA) has the following subsidiaries: Celepsa Renovables S.R.L. (CERE), Termochilca S.A.C, Ambiental Andina S.A.C., Compañía Eléctrica San Bernardino S.A.C., and Ecorer S.A.C.

In December 2025, the subsidiary CELEPSA acquired the shares of Ecorer S.A.C. from another shareholder, which means that—as of that date—CELEPSA owns 100.00% of the shares of this subsidiary.

- (iv) On November 1, 2025, the Shareholders' Meetings of Minera UNA S.A. (Minera UNA) and Minera Cronos S.A. (Minera Cronos) unanimously resolved to approve the merger project whereby Minera UNA universally absorbed Minera Cronos' assets as a block. As a consequence, Minera Cronos became extinct without liquidation, as per the provisions of the Business Corporations Act. Minera UNA owned 100% of the shares of Minera Cronos, so it is a simple merger, which will not give rise to an increase in the capital stock of Minera UNA. It should be noted that, since both companies belong to the same economic group, the merger does not represent any change within the group.

As of July 1, 2025, the Shareholders' Meetings of Inversiones en Concreto y Afines S.A. (INVECO) and Unión de Concreteras S.A. (UNICON) unanimously approved the reverse merger project, pursuant to which UNICON absorbed INVECO's assets and liabilities in their entirety, an operation that does not entail any change in the economic group. As a result of this transaction, the Company is the direct shareholder of UNICON, holding a 99.99% ownership interest.

Due to the possible ways in which the Tax Authorities of each country in which the Group operates may interpret the legal regulations in force, it is not possible to determine, as of this date, whether or not the reviews will result in liabilities for the Company and its Subsidiaries. Therefore, any higher tax or surcharge that may result from the tax reviews would be applied to the profit or loss for the year in which it is determined. In the opinion of the Group's Management and its legal advisors, any additional tax settlement would not be material to the consolidated financial statements as of March 31, 2026 and December 31, 2025.

Peru**i. Tax Contingencies**

As a result of audits carried out in previous years, the Company and its subsidiaries have been notified by the National Superintendency of Customs and Tax Administration (SUNAT) with various resolutions for alleged income tax omissions. In some cases, the Company and its subsidiaries have filed appeals to appellate courts as they did not find that such resolutions are in accordance with the law, but in other cases they paid the tax assessments received under protest. These tax proceedings are mainly related to:

UNACEM Corp S.A.A.

As a result of the tax audit and inspection processes performed on previous years, SUNAT has served the Company with several resolutions for alleged income tax non-payments. In some cases, the Company has filed claim remedies before higher instances because it considers that such resolutions do not comply with the law; and, in other cases, the Company has paid the tax assessments received under protest.

In June 2024, the Company made a payment under protest in the amount of PEN 52,109,000 on account of income tax for the year 2010, which has been effectively recognized in the separate income statement. The process is currently underway in the corresponding judicial instances. In December 2024, the judicial authorities granted a precautionary measure in favor of the Company, instructing SUNAT to return all collected amounts. As a counter-security measure, the Company was required to present a joint and several letter of guarantee in favor of SUNAT.

(see note 22.A (i)).

Between February and March 2025, SUNAT refunded PEN 52,109,000 to the Company. However, as the judicial proceedings are still ongoing and the final outcome remains uncertain, the refunded amount continues to be recorded under contingent liabilities

As of March 31, 2026 and December 31, 2025, the main tax proceedings pending before the Tax Administration are related to the following matters:

- Income tax for the years 2004, 2005 and 2009;
- Contribution to the supplementary mining, metallurgical and steel retirement fund from 2013 to 2017;
- Mining Royalties, formerly Cementos Lima, years 2008 and 2009;
- Mining Royalties, formerly Cemento Andino, year 2008.

As of March 31, 2026 and December 31, 2025, the Company has balances receivable related to these tax proceedings since, in the opinion of the Company's Management and its legal advisors, there are reasonable grounds to obtain an outcome favorable to the Company's interests, see note 6(b).

E. Environmental Commitments

The Group's activities are subject to environmental protection standards. These standards are the same as those described in the note to the annual consolidated financial statements as of December 31, 2025.

23. Financial Risk Management Objectives and Policies

The Group is exposed to market, credit and liquidity risks.

A. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices. Market prices involve four types of risk: interest rate risk, exchange rate risk, commodity price risk, and other price risks. Financial instruments affected by market risk include bank deposits, trade and other accounts receivable, other financial liabilities and derivative financial instruments.

The sensitivity analyses in the following sections relate to the consolidated financial position as of March 31, 2026 and December 31, 2025.

These sensitivity analyses have been prepared on the assumption that the amount of net debt, the ratio of fixed to floating interest rates on debt and derivative financial instruments, and the proportion of financial instruments in foreign currencies are all constant as of March 31, 2026 and December 31, 2025.

Notes to the UNAUDITED Consolidated Financial Statements
as of March 31, 2026 and December 31, 2025

i. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. The Group's exposure to market interest rate risk relates primarily to long-term debt obligations with variable interest rates.

The Group minimizes this risk by using interest rate swaps (hedging derivative financial instrument), as a hedge of the variability in cash flows attributable to changes in interest rates.

UNACEM Corp S.A.A. and Subsidiaries

Notes to the UNAUDITED Consolidated Financial Statements
as of March 31, 2026 and December 31, 2025

▪ **Hedging Derivative Financial Instruments**

The Group has entered into interest rate swap contracts designated as cash flow hedges, which are recorded at fair value. The details of these transactions are as follows:

<i>In thousands of Soles</i>	Currency	Reference amount (000)	Maturity	Received at a variable rate of:	Paid at a fixed rate of:	Fair value

UNACEM Corp S.A.A. and Subsidiaries

Notes to the UNAUDITED Consolidated Financial Statements
as of March 31, 2026 and December 31, 2025

The Group has designated these financial instruments as hedging instruments, since it has determined that there is an economic relationship between the hedged item and the hedging instrument.

The effective portion of changes in the fair value of derivative financial instruments that qualify as hedges are recognized as assets or liabilities, with a balancing entry in equity. As of March 31, 2026 and March 31, 2025, the Group recognized positive and negative variations of approximately PEN 1,485,000 and PEN 2,221,000, respectively, under "Unrealized profits and losses" of the consolidated statement of changes in net equity, which are recorded net of the income tax effect, respectively.

As of March 31, 2026, the Group recognized a financial expense for these derivative financial instruments in the amount of approximately PEN 674,000; said amount was actually paid during the year and is presented in the income statement under "Financial expenses."

Interest Rate Sensitivity

The Group does not have significant sensitivity to a reasonably possible change in interest rates on the portion of loans, after the impact of hedge accounting.

ii. Exchange Rate Risk

Exchange rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in exchange rates. The Group's exposure to currency risk is related, firstly, to the Group's operating activities (when income and expenses are denominated in a currency other than the Group's functional currency) and, secondly, by obtaining financing in U.S. Dollars.

The Management of each company monitors this risk through the analysis of the country's macroeconomic variables.

The result of maintaining balances in foreign currency for the Group in the periods ended March 31, 2026 and March 31, 2025 resulted in net losses of approximately PEN 21,401,000 and a net gain of PEN 28,275,000, respectively, which are recorded under "Exchange difference, net" in the consolidated income statement.

As of March 31, 2026 and March 31, 2025, changes in fair value are recognized as expense or income.

Sensitivity to Exchange Rate

Transactions in foreign currency are carried out at the free-market exchange rates published by the Superintendency of Banking, Insurance and Private Pension Fund Administrators (SBS). As of March 31, 2026, the weighted average free market exchange rates for U.S. dollar transactions were PEN 3.486 for buying and PEN 3.495 for selling (PEN 3.358 for buying and PEN 3.368 for selling as of December 31, 2025), respectively.

As of March 31, 2026 and December 31, 2025, the main foreign currency in which the Group maintains assets and liabilities is the U.S. Dollar. The balances of assets and liabilities in such foreign currency are shown below:

The following table shows the sensitivity to a reasonably possible change in the U.S. dollar exchange rate, with all other variables held constant, on the Group's profit before income taxes (due to changes in the fair value of monetary assets and liabilities, including foreign currency derivative financial instruments not designated as hedges).

+10	(63,309)	(40,590)

-10	63,309	40,590

B. Credit Risk

Credit risk is the risk that a financial loss will be incurred if a counterparty to a financial instrument or commercial contract fails to discharge its obligations. The Group is exposed to credit risk due to its operating activities (in particular trade debtors) and its financial activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments. The maximum exposure to credit risk for the items in the consolidated financial statements as of March 31, 2026 and December 31, 2025, is represented by the sum of the items of cash and cash equivalents, and trade and other accounts receivable.

The Group's Management continuously monitors the credit risk of these items and periodically evaluates those debts that show evidence of impairment to determine the required allowance for doubtful accounts.

C. Liquidity Risk

The Group monitors the risk of a funding shortfall using a liquidity planning tool on a recurring basis.

The Group's objective is to maintain a balance between continuity and flexibility of funding through the use of overdrafts on bank checking accounts and other financial liabilities.

As of March 31, 2026, the Group has negative working capital of approximately PEN 179,568,000. Additionally, the Group continuously monitors interest rate trends to optimize its cost and term structure.

The following tables summarize the maturity profile of the Group's financial liabilities based on the undiscounted payments provided for in the respective contracts:

The other financial instruments that are measured at amortized cost and which estimated fair value is disclosed in this note, as well as the level of such fair value in the accounting hierarchy, are presented below.

UNACEM Corp S.A.A. and Subsidiaries

Notes to the UNAUDITED Consolidated Financial Statements
as of March 31, 2026 and December 31, 2025

Level 1

- Cash and cash equivalents do not represent a significant credit or interest rate risk; therefore, their carrying amounts approximate their fair value.
- Due to the fact that accounts receivable are net of their allowance for doubtful accounts and they mainly have current maturities, Management has considered that their fair value is not significantly different from their carrying amount.
- As trade and other accounts payable have current maturities, the Group's Management estimates that their carrying amount approximates their fair value.

Level 2

- The fair values of the other financial liabilities have been determined by comparing the market interest rates at their initial recognition and the current market rates related to similar financial instruments. The table below provides a comparison between the carrying amounts and the fair values of these financial instruments:

<i>In thousands of Soles</i>	As of March 31, 2026		As of December 31, 2025	
	Carrying amount	Fair value	Carrying amount	Fair value
Other financial liabilities (*)	5,100,241	5,730,484	4,915,156	5,127,004
	5,100,241	5,730,484	4,915,156	5,127,004

(*) As of March 31, 2026 and December 31, 2025, the balance does not include bank promissory notes and overdrafts (see note 12).

25. Information by Operating Segments

For management purposes, the Group is organized into business units based on its products and activities and has three different segments organized as follows:

- Production and sale of cement.
- Production and sale of concrete.
- Generation and sale of electricity using hydraulic resources.

No other operating segments have been added as part of the operating segments described above.

The Management of each company monitors the operating results of the business units separately in order to make decisions on the allocation of resources and evaluate their performance.

Segment performance is evaluated on the basis of operating profit or loss and is measured consistently with operating profit or loss in the consolidated financial statements. Transfer prices between operating segments are agreed upon as between independent parties in a manner similar to that agreed upon with third parties.
